VR-7315S Rongda ,China OA Leader
VR-6515S Rongda Digital Duplicator

VR-6515S/VR-7315S are the best choice for multi-function, high-efficiency, and fashion design.

5.1" LCD panel, easy to operate. A3 paper scan, A3 document feed, A3 paper printing. It is easy to satisfy various printing requirements and realize the best performance on pc-connected printing and topping printing.

Master eject capacity is easy for 50 sheets.

Innovative design of paper feeding by double rollers which is much stable. Simultaneously feed paper to guarantee one page input only once time.

With 130PPM fast printing speed, VR-6515S/7315S realize easy processing even for high-volume printing work. In addition, with multi-shift adjustment switches, VR-6515S/7315S adapt to different thickness of paper feeding.

100% strong production capacity Normally 1000 sheets paper-receiving capacity, even can reach 1500(70g/m²) sheets. Paper feeding tray can heap 1000 sheets(70g/m²) at once during high-speed printing.

Precise paper feeding pressure adjustment realize excellent printing of various paper types, from 40g-157g/m². Three shifts pressure adjustment from thin paper to thick paper enhances reliability.

More flexible and easier to control

Simple operation

Error like paper jam etc. is easily found and understood through the control panel and solved by the new user.

File Mode	Input password:	Original Size
Single File		B 4
Image Mode		Zoom Ratio
Text>Photo		+
Master-make Density	0 1 R	100%
Standard	1 G	
Scan Density	Print Position	Print Speed
Standard	0	3 Level

Obvious operation control panel

The control panel is made up of LCD display on the left and easy-operated keys on the right, both are convenient for operation.

Upgraded management

Confidentiality mode, Consumable used-out reminder, The original scanning adjustment, Stencil length adjustment, Auto shut off, U-disk master making strengthen the working efficiency.

Technical innovation, achieve super printing

● Enlargement/ Reduction functions

Confidentiality mode, Consumable used-out reminder, The original scanning adjustment, Stencil length adjustment, Auto shut off, U-disk master making strengthen the working efficiency.

● Color printing

It can realize color printing by changing color drum, emphasizing on the special files. It brings a lot of benefit to save cost of color printing by 50% vs other brands as well.

● Auto printing density adjustment

It is so humanized that it will adjust the printing density automatically, controlled by PCB process, to keep stable output not affected by environment or print speed.

● Auto shade elimination

VR-6515S/7315S eliminate the shade automatically when printing to keep the paper clear and clean.

● Two in one function

This function easily and efficiently makes two originals to be printed in one page.

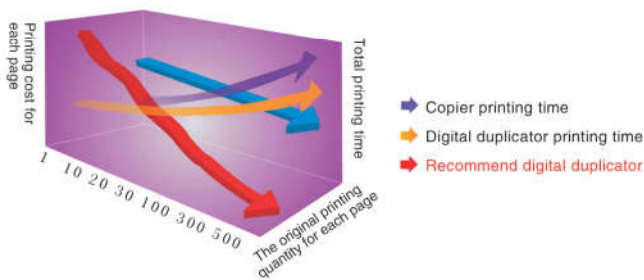

● Superior drying device

Quick try to avoid back-penetration . The paper keeps clean to be available for double-side printing.

● Super low cost

VR-6515S/7315S are cost-effective. It is more aggressive in features and low-cost. The more you print, the lower cost you accord, for consumable master and ink .

● Auto shade elimination

VR-6515S/7315S eliminate the shade automatically when printing to keep the paper clear and clean.

PC-connected printing with high-quality output

VR-6515S/7315S are self-equipped with USB port. It is a standard printer, simplifying complex office tasks by high speed PC printing so that output high quality image with less time, even for small picture and text.

Traditionally 4 steps process by operator for long time

Newly operation by 2 steps process, connecting PC by remote control.

VR-7315S Rongda ,China OA Leader
VR-6515S Rongda Digital Duplicator

Specification	VR-7315S	VR-6515S
Operation mode	Scanner mobile scanning, thermal master making, memory print, A3 scan,A3print	Scanner mobile scanning, thermal master making, memory print, A3 scan,B4print
Scan mode	Book scan	
Original type	Sheet, Book ($\leq 10\text{kg}$), Two in one	
Image processing mode	Text/Text&Picture/Picture&Text/Picture/Screen/Newspaper/Pencil	
Original size(min/max)	Max: 310*432mm	
Printing area(max)	291*414mm	252*358mm
Paper size(min/max)	Min: 90*140mm Max: 310*432mm	
Master making speed	19s (A4 vertical)	
Resolution	300*600dpi	
Print reproduction Ratio	Reductions:71%,81%,87%,94%; Enlargements:100%,115%,122%,141%; Free zoom:50~200%(1% increment)	
Paper weight(min/max)	40~157g/m ²	
Paper feeding capacity	1000 sheets(70g/m ²)	
Paper receiving capacity	1500 sheets(70g/m ²)	
Print speed	Five Steps Variable (55/70/85/105/130 ppm)	
Image positioning	Horizontal: $\pm 10\text{mm}$, Vertical $\pm 10\text{mm}$	
Scan density	5 variable (lighter, light, middle, dark, darker)	
Master making density	5 variable (lighter, light, middle, dark, darker)	
Master eject capacity	50 sheets	
Ink supply	Automatically , 600ml/bottle	
Stencil supply	Automatically , 90m/roll	
Power source	220V,50/60Hz	
Rated input power	150W	
Paper feeding system	Double roller feeder	
Features	PC-connected printing, Ink-saving mode, Pencil mode, Newspaper mode, Screen mode, Book shadow erasure, Programmed Printing Confidentiality mode, Code mode, Consumable used-out reminder, Auto checking the original, Energy-saving function, Print contrast adjustment, The original scanning adjustment, Stencil length adjustment .	
Optional function	Auto shut off, Network printing function, Auto-print pressure adjustment,U-disk master making	
Optional parts	Sorter, Color drum, Bottom stand	

Notice

Rongda keeps continuous improvement on product performance and reserves the right to amend the specifications and appearance without prior notice.
